PUBLIC PETITIONS.

RULES, ORDERS, and FORMS of PROCEEDING of The HOUSE of COMMONS, relating to PUBLIC PETITIONS.

EVERY Petition is to be fairly written, and no printed or lithographed Petition will be received.

Every Petition is required to contain a Prayer.

Every Petition is required to be signed by at least one person, on the skin or sheet on which the Petition is written.

Every Petition is required to be written in the English language, or to be accompanied by a translation, certified by the Member who presents it.

Every Petition is required to be signed by the parties whose names are appended thereto, by their names or marks, and by no one else, except in case of incapacity by sickness.

The signatures are required to be written upon the Petition itself, and not pasted upon, or otherwise transferred thereto.

Petitions of Corporations aggregate are required to be under their common seal.

No letters, affidavits, or other documents, may be attached to any Petition.

No reference may be made in a Petition to any Debate in Parliament, nor to any intended Motion.

No application may be made by a Petition for any grant of Public Money, or for compounding any debts due to the Crown, or for the remission of duties payable by any person, unless it be recommended by the Crown.

By Standing Order, 25th March 1715, this House will not receive any Petition for compounding any sum of money owing to the Crown, upon any branch of the revenue, without a certificate from the proper officer or officers annexed to the said Petition, stating the debt, what prosecutions have been made for the recovery of such debt, and setting forth how much the Petitioner, and his security are able to satisfy thereof.

By Resolution, 2d June 1774, it is highly unwarrantable, and a breach of the privilege of this House, for any person to set the name of any other person to any Petition to be presented to this House.

By Order, 20th March 1833, every Member presenting a Petition to The House, is to affix his name at the beginning thereof.

Every Member presenting a Petition is to take care that the same is in conformity with the Rules and Orders of The House.

Every Petition is to be respectful, decorous, and temperate in its language.

Petitions in the nature of Election Petitions will not be received, unless the forms required by the Election Petitions Act have been complied with, the same being certified by the proper officer.

Petitions can only be presented to The House by a Member, except Petitions from the Corporations of the Cities of London and Dublin.

Members desiring to Ballot for precedence in presenting Petitions, attend at the Table for that purpose, a quarter of an hour before the time appointed for Mr. Speaker to take the Chair.

At the time for presenting Public Petitions, the names of Members are called by Mr. Speaker, in the order in which they stand in the list prepared after such ballot.

A Member cannot present a Petition from himself.

A Petition from the Corporation of London is presented by the Sheriffs, at the Bar, being introduced by the Serjeant-at-Arms with the mace.

If one of the Sheriffs be a Member of the House, or unavoidably absent, a Petition from the Corporation of London may be presented, at the Bar, by one Sheriff.

A Petition from the Corporation of Dublin is presented by their Lord Mayor at the Bar.

If the Lord Mayor be a Member of The House, he is to present such Petition in his place.

By Standing Orders, 5th August 1853, every Member offering to present a Petition to The House, not being a Petition for a Private Bill, or relating to a Private Bill before The House, is to confine himself to a statement of the parties from whom it comes, of the number of signatures attached to it, and of the material allegations contained in it, and to the reading of the prayer of such Petition.

Every such Petition not containing matter in breach of the privileges of this House, and which, according to the rules or usual practice of this House, can be received, is brought to the Table by the direction of the Speaker, who cannot allow any debate, or any Member to speak upon, or in relation to such Petition; but it may be read by the Clerk at the Table, if required.

In the case of such Petition complaining of some present personal grievance, for which there may be an urgent necessity for providing an immediate remedy, the matter contained in such Petition may be brought into discussion on the presentation thereof.

All other such Petitions, after they shall have been ordered to lie on the Table, are referred to the Committee on Public Petitions, without any question being put; but if any such Petition relate to any matter or subject with respect to which the Member presenting it has given notice of a motion, and the said Petition has not been ordered to be printed by the Committee, such Member may, after notice given, move that such Petition be printed with the Votes.

Subject to the above regulations, Petitions against any Resolution or Bill imposing a tax or duty for the current service of the year, may be received, and the usage under which The House has refused to entertain such Petitions is discontinued.
